

Four  
Patch  
Kaleidoscope

### Supply List:

Fabric – Multi-colored with intricate pattern for best results

Amount of fabric is dependent on the length of the fabric's repeat, and you will need four repeats. Typically, a repeat is 12" or 27".

*The easiest way is to find the repeat of the fabric's pattern, and then take to cutting table and ask for four repeats rather than indicating an exact amount.*

Alternative: Use four identical panels.

Rotary cutter with **SHARP** blade

Pins (if you have the flat flower pins, these are best for layering)

Thread & sewing machine

General quilting supplies

Rulers and mats will be provided (bring your own ruler if you have a preference)
